Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's representative proposed claim amendments for discussion during the interview. Applicant's representative argued that the reference 2005/0055355 does not teach "the path is computed as a function of a document type". Examiner pointed out that the reference teaches PID 1 of node name as a function of the document type (fig. 4). Applicant's representative will further review the reference for amending claims to get over the reference.

(A fuller description, if necessary, and a copy of the amendments which the examiner agreed would render the claims allowable, if available, must be attached. Also, where no copy of the amendments that would render the claims allowable is available, a summary thereof must be attached.)
